

SECRETS OF LINEN

A gentle gift of nature

Instructions for Maintenance

Linens are a natural fiber which needs to be handled with care. To prevent damage, don't expose your rug to high temperatures or strong lights. Place your linen rug on a clean and dry surface.

To clean your rug we recommend vacuuming, using a conventional vacuum cleaner, minimum once a week. Once or twice a year, the carpet should be turned over and the back should be vacuumed using a brush roller, the vibrations will loosen the deep-seated piles.

Stains should be treated immediately to avoid a deeper penetration of dirt into the fibers. To avoid increasing the stain, always work from the stain edges inwards and do not rub too hard.

Dried stains should be removed carefully with a spatula or the back of a knife, then brushed and vacuumed.

Follow the instructions below for specific stains.

Carpets made of pure linen must always be dried immediately with a hairdryer, to prevent irreparable damages to the fiber. It is very important to not set the hairdryer too hot. The carpet should be dried on the front and the back. This is advised even if the stain comes from pure water. Most stains can be removed with mineral water and wool soap.

Stains	Material	Instruction
Chewing gum	<ul style="list-style-type: none"> - Ice - Soft cloth - Dry cleaning fluid - Water - Sponge - Soft brush - Hair dryer 	Place some ice on top of the bubble gum for 3-5 minutes to make the gum hard. Pull or scrape off the gum. Mix the dry-cleaning fluid with water in a 1:1 ratio. Dip a sponge in the mixture and remove the remaining stains. Wet the sponge in water and dab away the remaining traces of the cleaning fluid. Dry with a hair dryer or a fan until the carpet is thoroughly dry. Brush the carpet until it becomes fluffy.
Tea & Coffee & Wine	<ul style="list-style-type: none"> - Dry cleaning fluid - Warm water - Soft cloth or paper towel - Sponge - Soft brush - Hair dryer 	HANDEL IMMEDIATELY Use the paper towel or cloth to blot as much of the tea or coffee that has spilled. Mix the dry-cleaning fluid with water in a 1:1 ratio. Wet a sponge with the mixture and use it to remove the tea or coffee stain. Wet the sponge in water and dab away the remaining traces of the cleaning fluid. Dry with a hair dryer or a fan until the carpet is thoroughly dry. Brush the carpet until it becomes fluffy.
Food	<ul style="list-style-type: none"> - Dry cleaning fluid - Warm water - Soft cloth or paper towel - Sponge - Soft brush - Hair dryer 	Use the paper or cloth to remove as much of the stain as possible. Mix the dry-cleaning fluid with water in a 1:1 ratio. Wet a sponge with the mixture and use it to remove the residual stain. Wet the sponge in water and dab away the remaining traces of the cleaning fluid. If any residual stains remain, then repeat the process again. Dry with a hair dryer or a fan until the carpet is thoroughly dry. Brush the carpet until it becomes fluffy.
